TRAN HE CARED TO

The author of this paper is a brother of Mrs. A. H. Eschman, 255 Commercial street, who went to Camp Sherman October 3rd, 1917 was in training there until May 1918 in Co. L 329th Infantry 83rd Division.

He was transferred to Camp Merritt, N. J. where he remained until the middle of June then left for France arriving in France sometime the first of July. He has been in the hospital since in October on account of being gassed, was very bad at first, but now says he is much better and getting along nicely.

Limoges France, Base Hospital No. 28 November 24th, 1918

Dear Dad:

Will try and write the letter Uncle Sam requested all soldiers to write to-day, or in other words, this is Dad's day. This is the first time we have been allowed to tell where we are located, or how we have lived, and the hard times we have seen am not agoing to try to tell you, but just through and seen, for if I did it would make a large book. This hospital is located in southern France, about 65 miles from the Atlantic and the sea port Bordeaux. I went to the front the first time in July what they called the battle of the Marne. Then the next battle was when we took the town of Verdun on the Vesle River, from there we went over to the Saint Mihiel drive which was very easy for battle, then to the Argonne front which they call the Argonne front, which was the worst ever known. The "Marne" also was terrible. I was under shell fire all the time, and I was under machine gun fire all the time, and believe me it gets a man's nerves. I have been through it with out getting shot but the good Lord was on my side I surely believe, and I tell you I have said a good many prayers. Have liked all over Northern France, with full pack and hat and back and corn willie. A battlefield is certainly a terrible sight. I saw more by far than I wanted to see. Will tell you all the details when I get home, which I hope will be soon. I at least hope to be back in the states before many more weeks pass by.

At the time I was in the states, I was from 3 to 6 months behind the lines in time of war, but now that the war is over I don't know what they will do so they will ship me out of France, for I certainly do despise this place. Well Dad, guess I have written about enough for now, as said before could write enough to make a book very easy but will close for this time, you can let sister read this letter also for I have never written anything like this before hoping to see you all in the near future. With love to all,

Your Son,

Corporal William Verden King, Co. E, 35th Infantry, American P. O. No. 740.

AT THE STATE CAPITOL

It is a matter for congratulation on the part of every citizen of Ohio that the new State Legislature lost no time passing over the matter of ratifying the Federal Prohibition Amendment to the Constitution.

Ohio is lined up on the side of economy common sense and right moral standards with the rest of the states. It is predicted that 42 out of the 48 states will ratify the amendment. Michigan, Idaho, Tennessee, West Virginia, Maine and Illinois are among the other states who are lining up to put the Liquor curse in this country out of existence.

The inauguration of Governor Cox was without pomp or display as befitting the conditions which exist in the State and Nation: The American people have neither the time nor the money to spend in unnecessary display or frivolities. The problems of reconstruction are upon us as a people and their solution will require the best of our resources and our resources to the utmost.

Big problems are before the members of the State Legislature among them the problem of taxation. The legality of the classification amendment to the State Constitution is now being tested by the Supreme Court.

The adoption of the prohibition amendment will deprive the state and its wet municipalities temporarily at least of something more than \$6,000,000 revenue. That amount will have to be provided from some other source. Eventually this item will be more than made up by the enhanced values of property and by the fact that many more citizens will own property that will go on the tax duplicates; meanwhile the people of this state will not have it upon their consciences that they are paying any portion of the running expenses of their government at the price of the mental, moral and physical well being of any of their fellow citizens.

With opening of the State Legislature, the season of annual meetings and conventions in Columbus also opens. State Threshermen, Good Roads Federation, a big sportsmen meeting and banquet taking up the subject of Game protection and game and fish production in the state and the big program for the Seventh Annual Farmer's Week the last week of the month these are among the events scheduled for January in the capital city.

CLEAN WAR CHEST RECORD

At a meeting of the executive committee of the Fulton County War Chest Fund held January 9th, it was voted to discontinue collections for the War Chest Fund from all subscribers who shall have paid up to March first of this year. The reason given for this action is that many of the subscribers have refused to continue payments on the ground that "the war is over" and further payments are not required. As a matter of fact those resultant conditions that make imperative the need of money to meet and relieve them are by no means "over" and the cessation of actual fighting does not release many thousands of our troops from active service; troops that need the ministrations of the war organizations that derive their financial support from the War Chest, now just as much as they ever did. The war will not be OVER until the peace treaties are signed.

The executive committee held that it was not fair and just to accept money from half the subscribers and let the rest go by default. All subscribers are expected to pay up to March 1st, all should be willing to do this as it means only nine months more of the war. The record of all subscribers will be kept as a permanent record for such use in the future as may be required. If all subscribers will pay up as indicated, the War Chest can meet the payment of relief funds already pledged and each subscriber will have a clean conscience in the matter. We ought to do to preserve our own self if nothing more.

As just one instance of the need in the world: The Polish Relief Committee appealed not long since to our War Chest Fund for help, stating that in one territory in Poland having a population of 200,000 there is not one child under six years of age—the reason? These little children have died of starvation! This appeal and others like it have to be turned down because there are no funds available, and there are no funds because people refuse to give because "the war is over."
